-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Art Unit: 1623

Claims 1 and 31-38 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for a linking group represented by the Formula IV, does not reasonably provide enablement for any linking group for the reasons set forth in the Office Action of August 10, 2004.

Applicant's arguments filed November 10, 2004 have been considered but have not been found persuasive.

The specification fails to provide a specific definition for the linking group. Note that on page 12 of the specification it is stated that "L can be selected to be a linking group represented by the Formula IV". However, said definition is not limited to the group of Formula IV. The specification fails to provide any guidance or teaching on how to choose linking groups which do not have Formula IV. Since the term "linking group" encompasses a large number of possible groups, it would take an undue amount of experimentation to determine which specific linking groups will result in a compound having the desired activity.

Claims 1-2 and 5-38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The terminology "and pharmaceutically acceptable salts and solvates thereof and individual diastereoisomers thereof" (claims 1, 2 and 8-31) is an improper Markush terminology. Such terminology as "or a pharmaceutically acceptable salt or solvate thereof or an individual diastereoisomer thereof" can be used to overcome said rejection.

The terminology "Rx may be" (claim 2) renders the claim indefinite since it fails to limit the definition of Rx to the groups set forth.

There is no antecedent basis in the structural formula set forth in claim 31 for the variables X1 and X2 in the reaction steps.

In claims 33-34 it is unclear if the diseases set forth are treated at the same time or separately. Changing the term "and" to the term "or" can be used to overcome the rejection.

In claim 33, the terminology "administering to a subject" makes it unclear whether said subject is in need of treatment. Such terminology as "administering to a subject in need of treatment" can be used to overcome the rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
